

NALLAIAH M

Software Developer | Data Analyst | Full Stack Developer | Cyber Security Engineer |
nallaiahmari4@gmail.com | +91 6369098239 | LinkedIn | GitHub | Leet Code | Portfolio |

Career Objective

Motivated Computer Science student with strong problem-solving skills and proficiency in C Programming, React.js, Node.js and MySQL. Passionate about software engineering and eager to build efficient, scalable software solutions. Looking forward to contributing to embedded software development while continuously learning new technologies.

Education

B.E. Computer Science and Engineering Francis Xavier Engineering College CGPA: 9.08	Aug 2023 - Mar 2027
Cyber Security Essentials , Minor Degree Course Francis Xavier Engineering College	Aug 2024 - Mar 2027
HSC Government Model School Percentage: 88%	Apr 2023

Technical Skills

- **Problem Solving:** Logical Reasoning, Analytical Thinking, Quantitative Aptitude, Mathematical Problem Solving
- **Programming:** C, C++, Java, Python, SQL
- **Software Development:** Data Structures, Algorithms, Object-Oriented Programming
- **Full Stack:** React JS, Node.js, HTML5, CSS3, JavaScript, Bootstrap
- **Backend Logic:** Database Query Optimization, Server-side Scripting, MVC, REST API Integration
- **Databases:** Relational Databases (MySQL), NoSQL (MongoDB)
- **Tools & Technologies:** Git, GitHub, Linux Administration, Visual Studio Code, Power BI
- **Computer Science Fundamentals:** Operating Systems, DBMS, Computer Networks
- **Soft Skills:** Problem Solving, Technical Communication, Adaptability

Internships

Full Stack Developer Intern Cognifyz ■ Assisted in developing responsivefrontend interfaces using modern web technologies. ■ Worked on backend integration and REST API connectivity for web applications. ■ Implemented full stack features including data handling and application logic. ■ Collaborated wi th development teams to improve performance and functionality.	Aug 2025 - Sep 2025
Data Analyst Intern Bluetstock Fintech ■ Worked on financial dataset analysis to identify patterns and insights. ■ Performed data preprocessing and visualization using Python tools. ■ Assisted in building reports and dashboards for analytical tasks. Supported ■ data-driven decision making within fintech analytics workflows.	Jan 2026 - Feb 2026
Data Analyst Job Simulation Deloitte ■ Applied data analytics techniques to clean and interpret complex business datasets. ■ Generated actionable insights to support data-driven decision-making processes.	
Data Analysis with Gen AI Job Simulation Tata Global Business ■ Leveraged Generative AI tools to automate data processing and analysis. ■ Developed visualization workflows to transform raw data into strategic reports.	

Projects

AI-Powered Architectural Design and 3D Visualization System ■ Developed a system that generates building floor plans from user inputs. ■ Applied AI logic to create optimized architectural layouts. ■ Integrated 3 D visualization for interactive design preview.	React.js, HTML, CSS, JavaScript, 3D Visualization, MySQL.
Forest Fire Risk Prediction and Autonomous Response System ■ Developed a system to predict forest fire risk using environmental data. ■ Applied machine learning algorithms for early fire detection analysis. ■ Designed an automated response mechanism to trigger water sprinklers to reduce fire.	React.js, REST API, Machine Learning, IoT, Data Analysis

Certifications & Achievements

- **AI Sustainability International Hackathon – Canadian University Dubai**
- **Cisco Networking Academy:** CCNA – Networking Fundamentals
- **Red Hat:** Linux System Administration
- **NPTEL:** Python (93%), **Introduction to IoT (83%)**
- **Java Programming – Oracle**
